

APPLICATION FOR PERMIT

Serial No. 6188

TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Date of first receipt and filing in State Engineer's office JUN 28 1920
Returned to applicant for correction _____
Corrected application filed _____

The undersigned NEVADA WONDER MINING COMPANY
Name of applicant.
of WONDER, County of CHURCHILL,
State of NEVADA, hereby make application for
permission to appropriate the public waters of the State of Nevada,
as hereinafter stated. (If applicant is a corporation give date and
place of incorporation.) _____

1. The source of the proposed appropriation is Horse Creek
Name of stream, lake, or other source.
2. The amount of water applied for is 0.28 second-feet.
One second-foot equals 40 miners' inches.
3. The water to be used for Irrigation and domestic
Irrigation, power, mining, manufacturing, domestic, or other use.
4. The water is to be diverted from its source at the following
point: This is an application for permit to change point of diver-
Describe as being within a 40-acre subdivision of public survey, or by course and distance to a section-corner. If on unsurveyed land it should be so stated.
sion and place of use of water, (SEE SUPPLEMENTAL SHEET.)

IF THE WATER IS TO BE USED FOR IRRIGATION, SUPPLY THE FOLLOWING INFORMATION:

- (a) Number of acres to be irrigated is _____
- (b) Description of land to be irrigated _____
Describe by legal subdivision, or if on unsurveyed land it
should be so stated and a description provided in accordance with special instruction from the State Engineer when application is returned for correction.
- (c) Irrigation will begin about _____ and end about _____
Month.
_____, of each year.
Month.

IF WATER IS TO BE USED FOR POWER, MINING, TRANSPORTATION, OR OTHER USE, SUPPLY THE FOLLOWING INFORMATION:

- (d) Power to be developed is _____ horsepower.
- (e) Works to be located _____
Give 40-acre subdivision on which works will be located, or locate by course and distance to a section-corner.
- (f) Point of return of water to stream _____
Describe in same manner as point of diversion.
- (g) Remarks _____

DESCRIPTION OF PROPOSED WORKS

State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits. If water

is to be stored in reservoirs it should be so stated and the location of the reservoir should be given with reference to the legal subdivisions.

5. Estimated cost of works _____

6. Estimated time required to construct works _____

7. Remarks _____

SUPPLEMENTAL SHEET.

APPLICATION FOR PERMISSION TO CHANGE THE POINT OF DIVERSION,
PLACE OF USE AND MANNER OF USE OF WATER AS GRANTED
IN CERTIFICATE NO.6, BOOK 3, ISSUED UNDER
PERMIT NO.1 5 1 0.

000000

Date of first receipt and filing in State Engineer's Office JUN 28 1920
Returned to applicant for correction _____

Corrected application filed _____

The undersigned NEVADA WONDER MINING COMPANY, of Wonder, Churchill County, State of Nevada, hereby makes application to change the point of diversion, place of use and manner of use of water heretofore appropriated and beneficially used, as hereinafter shown:

1. The source of the water supply proposed to be changed is "Horse Creek" in T.19 N.R.35 E., M.D.B. & M., in said county.
2. The quantity of water desired to be changed is the amount granted in certificate No.6, Book 3, records of State Engineer's Office, namely 0.28 cubic foot per second, less 300 gallons per day (0.00048 cubic foot per second), which amount the applicant desires to continue to use at Wonder, Nevada, in accordance with right set forth in said certificate No.6, Book 3.
3. The water which it is proposed to change has, for the past few years, been used, by virtue of the right granted in said certificate No.6, Book 3, for mining, milling and domestic purposes at the town of Wonder, Nevada.
4. The use of water is proposed to be changed to irrigation and domestic purposes at the Horse Creek Ranch, in accordance with the use formerly made of the water prior to the filing of application No.1510.
5. The water has for the past few years (under said certificate No.6, Book 3,) been diverted at a point N.50°55' E, 33680 feet from U.S.L.M. No.191, in a pipe line to the town of Wonder.
6. Under the change proposed by this application the water will be diverted as follows: (a) For irrigation at the point of diversion of Ditch No.1, formerly used prior to the change granted under permit No.1510, which bears N.26°54' E, 23350 feet from U.S.L.M. No.191,; also at the diversion of Ditch No.2 formerly used and which is located 1600 feet upstream from the diversion of Ditch No.1. (b) For 0.00048 cubic feet per second of water which is to be used through the pipe line to Wonder, the same point described in question 5 above.
7. The number of acres proposed to be irrigated with the water which it is desired to change is the same as that set forth in certificate No.4, Book 2, issued under proof of appropriation No.0754, to wit, 32.5 acres of cultivated land and 131.35 acres of pasture land during flood season, less about 0.1 of an acre which was irrigated formerly with the 0.00048 cubic foot per second (300 gallons per day) which it is desired to retain for use in Wonder. The description of the land proposed to be irrigated by the change is the same as that described in said certificate No.4, Book 2.
8. Water will be diverted by ditches.
9. Estimated cost of the proposed works is _____
10. Estimated time required to construct the works is _____
11. Irrigation will begin about April 15th of each year and end about September 30th of each year.
12. The water has been used heretofore during the entire year.
13. Remarks: In the year 1909, application No.1510 was filed to change the point of diversion, place of use and manner of use of the waters of Horse Creek, which was then held by the applicant herein under a vested right, as shown by proof of appropriation No.0754, and certificate No.4, Book 2. This application was approved and eventually certificate No.6, Book 3, was issued thereunder for a change in the place and manner of use of 0.28 of a cubic foot per second. This application proposes to change the 0.28 c.f.s. (with the exception of 300 gallons per day, or 0.00048 c.f.s) back to its original use for irrigation.

Engineer.

APPROVAL OF STATE ENGINEER.

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit, to change the point of diversion, place and manner of use of water from Horse Creek, is issued with the understanding that no valid rights will be affected by such changes, and with the further understanding that the entire 0.28 cubic foot of water per second can be changed for irrigation purposes on the Horse Creek Ranch. A substantial headgate and weir must be installed at or near the new point of diversion in order to facilitate the measurement and control of water. The State reserves the right to regulate the use of water under the changes herein proposed at any and all times.

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.28 cubic foot per second.

Actual construction work shall begin on or before June 30, 1927

Proof of commencement of work shall be filed before July 30, 1927

Work must be prosecuted with reasonable diligence and be completed on or before June 30, 1928

Proof of completion of work shall be filed before July 30, 1928

Application of water to beneficial use shall be made on or before June 30, 1929.

Proof of the application of water to beneficial use must be filed with State Engineer on or before July 30, 1929.

Proof of labor filed October 22, 1927

WITNESS MY HAND AND SEAL this 30

Proof of completion of work filed October 22, 1927. day of August, 1926.

Cancelled March 26, 1935 because of failure of applicant to comply with provisions of permit.
